Continuation of Attachment(s) 3. Information Disclosure Statements (PTO/SB/08), Paper No./Mail Date: 3/23/2006; 12/11/2006.

Art Unit: 1795

## **DETAILED ACTION**

### ***Priority***

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Information Disclosure Statement***

The information disclosure statements filed 3/23/2006 and 12/11/2006 have been placed in the application file, and the information referred to has been considered as to the merits.

### ***Drawings***

The drawings filed on 3/23/2006 have been approved.

### ***Election/Restrictions***

Claims 7-15 are allowable. This application is in condition for allowance except for the presence of claim 1 directed to an auxiliary power unit, which is non-elected without traverse. Accordingly, claim 1 been cancelled. Claim 1 has been reviewed and considered for rejoinder, but is not in condition for allowance.

### ***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR

Art Unit: 1795

1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel non-elected claim 1.

***Allowable Subject Matter***

Claims 7-15 are allowed.

The following is an examiner's statement of reasons for allowance:

The instant claims are to a process for generation of electricity from a hydrocarbonaceous fuel, in an auxiliary power unit for electricity generation in combination with an internal combustion engine having an outlet for engine exhaust gas, said process comprising:

- introducing both hydrocarbonaceous fuel and engine exhaust gas into an evaporator to form a mixture wherein at least part of the fuel is evaporated;

- introducing the mixture of fuel and engine exhaust gas into a catalytic partial oxidation reformer to form a synthesis gas; and

- introducing the synthesis gas into a solid oxide fuel cell via an inlet for fuel and an oxygen-containing gas into the solid oxide fuel cell via an inlet for an oxygen containing gas to generate electricity.

The prior art does not teach the claimed process including all of the claimed elements and limitation steps. The closest prior art includes Akikusa et al. (US 7,235,322), which teaches a process that includes introducing both a fuel and an engine exhaust gas into a catalytic oxidation reformer and introducing the reformed gas into a solid oxide fuel cell to generate electricity. The

Art Unit: 1795

reference does not teach introducing both a fuel and an engine exhaust gas into an evaporator to form a mixture wherein at least part of the fuel is evaporated. Further, Geisbrecht et al. (US 6,994,930) teaches a process that includes introducing both hydrocarbonaceous fuel and engine exhaust gas into a catalytic oxidation reformer and introducing the reformed gas into a solid oxide fuel cell to generate electricity. The reference does not teach introducing both hydrocarbonaceous fuel and engine exhaust gas into an evaporator to form a mixture wherein at least part of the fuel is evaporated. In addition, Botti et al. (US 6,655,325) teaches a process that includes introducing both hydrocarbonaceous fuel and engine exhaust gas into a solid oxide fuel cell to generate electricity. The reference does not teach introducing both hydrocarbonaceous fuel and engine exhaust gas into an evaporator to form a mixture wherein at least part of the fuel is evaporated.

Because the prior art does not disclose the claimed invention or provide teachings that would lead one of ordinary skill in the art at the time the invention was made to find the invention obvious over the prior art, the claims are allowed. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Examiner Correspondence***
